WINDHAM- Providing Community Experience, Services for Older Adults, medically oriented services, and volunteer opportunities

One of the things that has set Baroco apart, from other providers, been our consistent attention to looking at ways to improve our services. Baroco has developed its own, in-depth, quality assurance tool to ensure that each of our programs is providing the best possible services. All of our facilities are committed to programmatic improvement and maintaining the respect and dignity of every participant that we serve. To this end, we are constantly searching for innovative ways to enhance the services we provide.

Additionally, Baroco is evaluated throughout the year by various State auditors. The auditors have given us excellent evaluations frequently stating that our services are among the best that they have reviewed. DDS implemented Quality Service Reviews (QSRs) and DDS Contract Reviews, in all three Regions, have consistently concluded that Baroco is providing exemplary services to the individuals served by our programs.

All services are individually developed through the "Person Centered Planning" process. Person-Centered Plans are developed in conjunction with the person's home and family. We work hard to coordinate programs between the person's home and Day Program to, to ensure that the consumer can generalize his or her skills in both environments.

Quarterly progress summaries are shared with the team and changes are made to meet the individual's needs as appropriate. We maintain close relationships with families and guardians through annual program surveys and telephone calls. We also assist many of our consumers in writing letters to those who are involved in their lives. Baroco maintains an open door policy in which visitors are always welcome with no appointment necessary.
